

## RETROMIX

will bring a HUGE party to your Classic Hits, AC or Hot-AC station without playing songs that your listeners are not familiar with. All the best retro hits from the 80's (with an occasional 70's hit thrown in to shake things up), professionally beatmixed for a seamless flow. PPM markets will benefit from the lack of interruptions in the music. Listeners in diary markets will associate the nostalgia the show invokes with your station's brand.

**RetroMix** is second-to-none in versatility, coming in several different versions to fit any situation. We've got three, four and five-hour versions to fit your station's schedule. Or, run **RetroMix** one hour at a time weekdays to give your listeners an upbeat lunchbreak or drive home. Got great jocks? Awesome! Let them do what they do best using our impeccably timed music logs. Or use our hosted version, featuring veteran Los Angeles disc jockey Christian Wheel.

**We are the Retro Experts.** We know the music and have done radio in some of the biggest markets in the world. You can feel confident that your music is being chosen by professional radio programmers, not sports bar DJ's.

Contact us for more information and to get a demo. One spin and we're sure you'll realize that **RetroMix** is the best retro mixshow available. Get **RetroMix** on your station today!
